AN INVITATION TO ESCAPE

There are places you visit. And there are places that stay with you.

Botanica was created for those drawn to something quieter, a slower rhythm, a deeper connection, a more thoughtful way to travel. Not an escape from life, but a return to what matters within it.

ROOTED IN PLACE

Founded by generational Caymanians Stephen and Josephine Hislop, Botanica is a reflection of island life as it is truly lived.

A collection of thoughtfully designed cottages near Seven Mile Beach, created not as a resort, but as a place to belong. The Beach Cottage extends this vision, bringing together heritage, design, and the natural beauty of Cayman in its most effortless form.

A STUDY IN QUIET LUXURY

With 15 thoughtfully designed luxury cottages, Botanica offers a more intentional way to stay in Cayman, one rooted in beauty, comfort and a slower rhythm of island life. Inspired by the island's natural landscape, the property blends elevated design, quiet luxury, and a true sense of home.

OUR FAMILY COTTAGE
